The discussion and analysis is provided to assist members in understanding the summary financial statements. The discussion and analysis is based on Alzheimer's Australia NSW financial statements and the information contained in the summary financial statements has been derived from the full 2013 Financial Report of Alzheimer's Australia NSW.

#### Statement of Comprehensive Income

The deficit from ordinary activities after income tax for the year of \$11,026 was a \$301,422 decrease from the surplus in the previous financial year. The main contributing factors to this result were:

- (a) a decrease in bequest income of \$351,527 from \$650,767 in 2011/2012 to \$299,240 in 2012/2013,
- (b) realised investment losses of \$313,131 in 2012/2013 compared to \$19,471 in 2011/2012, and
- (c) capital grants from both government and non-government sources amounted to \$11,100 compared to \$337,936 in the previous financial year.

These negative factors were offset in part by:

- (d) State/Federal and non-government grants of \$7,225,510 compared to \$5,863,090 received in 2011/2012, and
- (e) write-back of impairment of investments upon sale of \$109,120 compared to impairment of investments charge of \$344,992 in the previous year.

State and Federal Government operating grants received increased by 19.4% to \$6,710,711. The percentage of operating government grants to total revenue, excluding bequests and loss on sale of investments, of 67.8% compares to 65.4% for 2011/2012.

#### Statement of Financial Position

Total assets increased by \$266,552 representing an increase of 1.7%. The increase was mainly attributable to the following:

- (a) the balance of cash and cash equivalents increased during the year by \$113,322,
- (b) trade and other receivables increase of \$345,168 arising from trade invoices taken-up in June 2013, and
- (c) The carrying value of financial assets increased during the year by \$42,920 due to government and non-government grants being received in advance, with counter balance being shown under trade and other payables.

## **Statement of Cash Flows**

Cash flows showed an increase of \$113,322, mainly due to reduced capital expenditures of \$598,512 and net financial assets movement following maturity of Treasury Bonds not being reinvested.
