Family Carer Education 2019

Dementia Australia provides free-of-charge education and awareness to assist families and friends caring for a person with dementia.

All programs incorporate an understanding of dementia, strategies for maintaining effective communication and ways to promote independence, self esteem and enjoyment for you and the person with dementia.

Programs and sessions are facilitated in an interactive group format to provide participants an opportunity to meet other carers, families and friends who share a similar experience.

All sessions include refreshments.

Gold coin donations appreciated.
