

Research participants wanted!

**Are you 65 years or older and taking at least one regular medicine
OR a caregiver to such an individual?**

We are looking for older people and caregivers to participate in a study to develop an online portal that will help older people get the most out of their medicines. As a token of our appreciation, participants will be reimbursed for their time with a gift voucher.

This research project will involve the development and implementation of an online portal that addresses the needs of older people who are managing multiple medications. We are recruiting older people and caregivers to be involved in designing this online platform with our research team.

Research participants wanted!

**Are you 65 years or older and taking at least one regular medicine
OR a caregiver to such an individual?**

We are looking for individuals to test and provide feedback on a medication management website for older adults that has been designed with a group of older adults and caregivers.

Participation in this study will involve website testing and completing a survey exploring your experiences of our website. As a token of our appreciation, participants will be reimbursed for their time with a gift voucher.
